京沪高铁和通苏嘉甬高铁在苏州高铁新城交汇形成“金十字轴”，极大地缩短了与长三角各城市、港口、机场等的时空距离，同时与四通八达的高速路、纵横交错的国道省道共同构建出立体交通路网，更将加速苏州高铁新城融入国家“八横八纵”铁路网，与全国各大主要城市形成紧密联系。

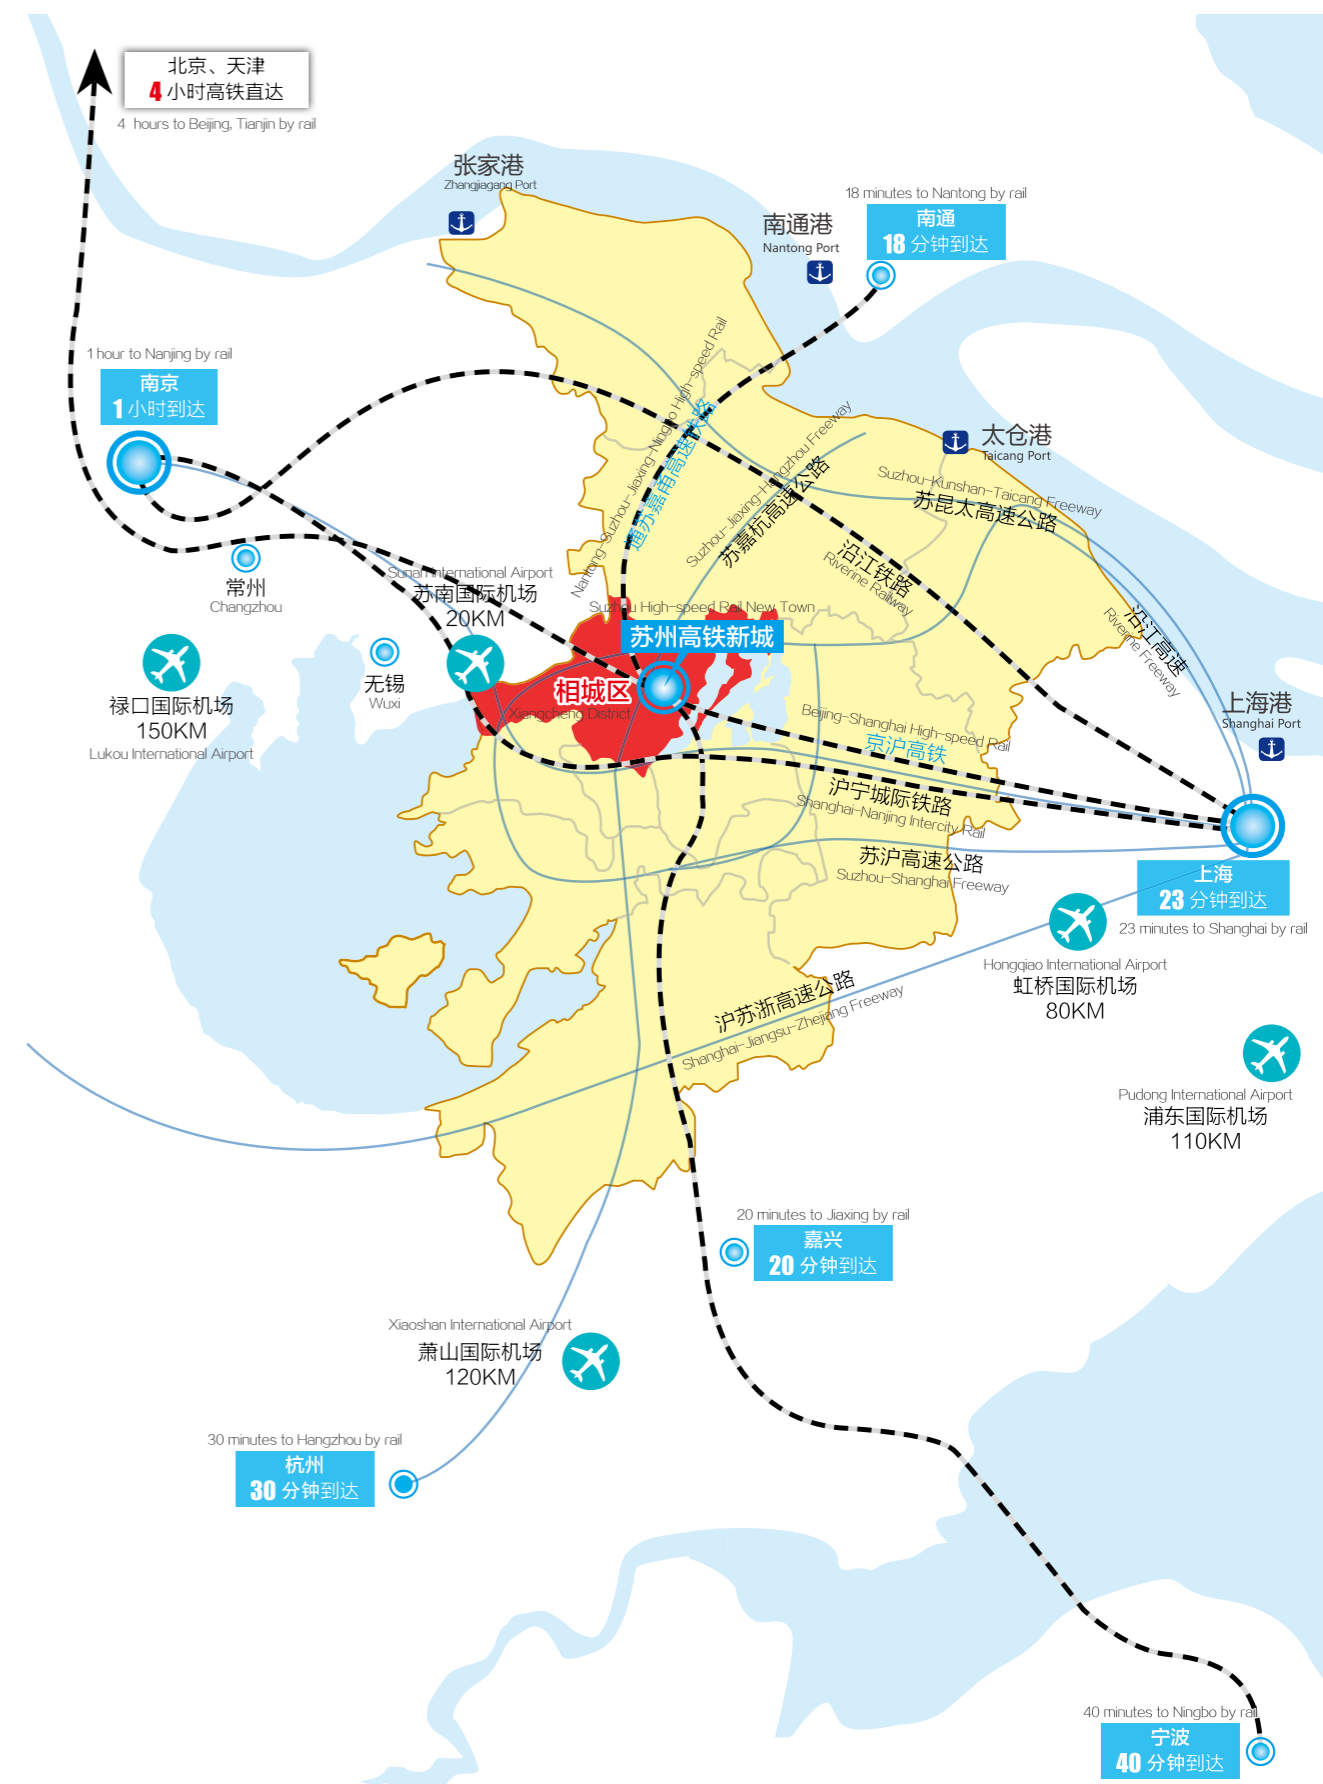

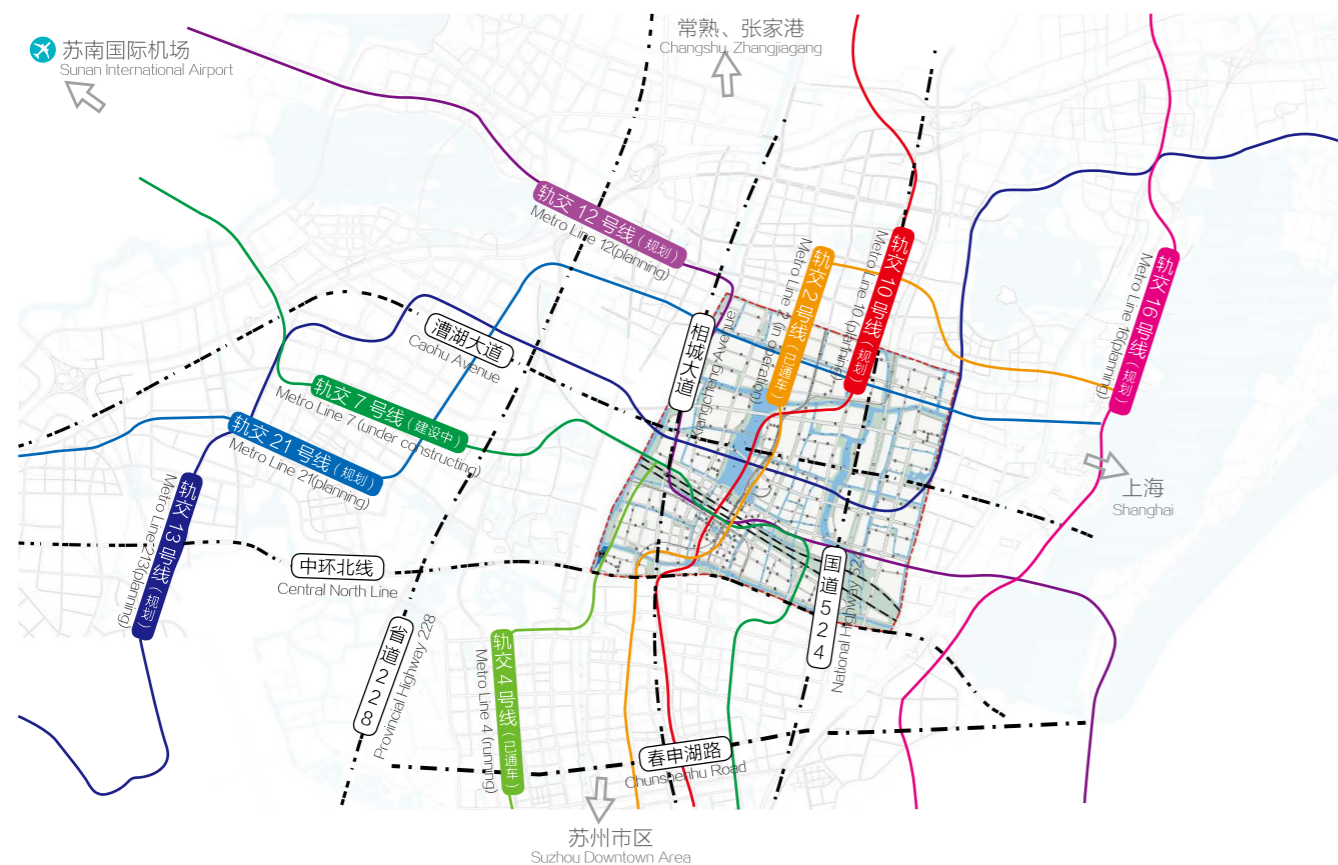

The Peking-Shanghai High-speed Rail and the Nantong-Suzhou-Jiaxing-Ningbo High-speed Rail are intersected here to form a “Golden Cross”, thus greatly lessening the space and time distance to the Yangtze Delta cities, ports and airports; meanwhile they form a three-dimensional traffic network together with the easily accessible freeways and the crisscrossing national and provincial highways. The Rails will speed the integration of SHRNT into the National “Eight Vertical and Eight Horizontal” Rail Network, and form a close connection with the other large and major cities.
